PROFESSIONAL SUMMARY

IT Support Technician experienced in enterprise endpoint support, systems administration, and infrastructure troubleshooting across Windows, Microsoft 365, and Google Workspace environments. Skilled in Active Directory, SCCM, Intune, VPN/MFA support, device deployment, and account administration within fast-paced enterprise IT environments.

TECHNICAL SKILLS

Systems | Windows 10/11, macOS, Linux, Active Directory, Entra ID, SCCM, Intune
Administration | Google Admin Console, Exchange Admin Center, User Provisioning, Account Administration
Networking | TCP/IP, DNS, DHCP, VPN, VLANs, RDP, 802.1X, DaloRADIUS
Endpoint Support | Device Imaging, Endpoint Deployment, Hardware Troubleshooting, Remote Support
Enterprise Tools | Microsoft 365, ManageEngine Endpoint Central, Zoho Assist, NinjaOne, Freshdesk, Citrix
Security & Management | ePolicy Orchestrator (ePO), Ivanti Service Manager, DUO Mobile MFA Support
Scripting | PowerShell, Python, Bash, SQL, JavaScript, HTML/CSS
Documentation | OneNote, Confluence, BookStack

EXPERIENCE

Junior Help Desk | TransPerfect — November 2025 – Present

Active Directory | Exchange Admin Center | VPN | MFA | RDP | Endpoint Support | Remote Troubleshooting | DUO Mobile

- Resolved 300+ enterprise support tickets involving Outlook, VPN connectivity, MFA, password resets,account lockouts, RDP access, and remote troubleshooting across global user environments.
- Managed 150+ Active Directory and Exchange administration requests including onboarding/offboarding workflows, user provisioning, distribution list management, SSO troubleshooting, alias management, access-control updates, account maintenance, and device coordination, and successful escalation tickets.
- Supported endpoint and remote troubleshooting operations using ManageEngine Endpoint Central, Zoho Assist, ePolicy Orchestrator (ePO), and Microsoft 365 administrative tools while assisting with hardware replacements, software installs, workstation setup, and device troubleshooting.
- Authored and maintained SOP documentation, troubleshooting guides, and internal knowledge base articles using OneNote, Confluence, and BookStack to improve troubleshooting consistency and support efficiency.

IT Support Technician | Bethpage School District — July 2025 – October 2025

Tier 1–2 Support | SCCM | Google Admin | Infrastructure Support | Chrome OS | Device Management

- Provide Tier 1–2 technical and field support for faculty, staff, and students across multiple educational environments.
- Troubleshoot hardware, software, network, printer, and account-related issues through ticketing systems and remote support tools.
- Administer devices through Microsoft SCCM and Google Admin Console, including software deployment and Chrome OS policy management.
- Configure and maintain user accounts, permissions, and access workflows within Infinite Campus and Google Workspace.
- Support Chromebook deployment, repair, enterprise enrollment, and device lifecycle management.
- Assist with network infrastructure support including switch patching, Cat6 cable runs, and workstation connectivity troubleshooting.
- Support 802.1X authentication deployments using DaloRADIUS with VLAN segmentation for staff and student devices.
- Create SOPs and internal documentation to improve troubleshooting workflows and reduce recurring support requests.

IT Support Specialist Intern | Infinite Consulting Corp — September 2024 – December 2024

Microsoft Azure | Microsoft 365 | Entra ID | Intune | Endpoint Deployment

- Assisted with cloud infrastructure administration and endpoint management using Microsoft Azure, Microsoft 365, Entra ID, and Intune.
- Configured laptops using Windows Autopilot and Microsoft Intune deployment workflows.
- Supported ticket management operations, incident documentation, and SOP creation within an enterprise support environment.

Management Information Systems Intern | St. Joseph Hospital — August 2022

Healthcare IT Support | Ivanti | EPIC EMR/EHR | Device Deployment

- Resolved 50+ support tickets and assisted with password resets/account access issues for healthcare staff using Ivanti Service Manager.
- Imaged and deployed 30+ Windows 10 laptops for clinical environments while supporting workstation maintenance.
- Created technical documentation and generated EPIC EMR/EHR reporting materials for department leadership.

PROJECTS

Home Lab Environment

- Built a virtualized Windows Server 2025 and Ubuntu Linux lab environment using VirtualBox to practice systems administration, enterprise networking, and multi-device configuration.
- Configured Active Directory Domain Services (AD DS), domain-joined multiple Windows client machines, and managed centralized authentication, organizational units (OUs), and group policies. Practicing PowerShell, Linux command-line operations, and remote troubleshooting within a simulated enterprise environment.

EDUCATION

SUNY Farmingdale — B.S. Computer Programming and Information Systems — Spring 2025
Nassau Community College — A.A.S. Information Technology — Fall 2023

CERTIFICATIONS

Google IT Support Professional Certificate (Coursera) — 2024
